Project Schedule and Resource Management

Version (Date): Oct 23, 2003

Activity ID: S4	Activity Title: TERRAIN VERIFICATION
-----------------	--------------------------------------

A) Activity Definition: Cross Sections and Reference Hubs. This activity may be accomplished in three ways depending on the needs of the project and budgetary considerations.

- 1) A topographic survey may be performed that would follow the specifications for a ground survey.
- 2) Actual ground cross-sections are measured at the location required by the needs of the design & CFLHD specifications.
- 3) Actual ground cross-sections are measured at the location required.
